

# TRUE KITEBOARDING

## NTT The revolution of individual fit.

Every foot is different. We at North Kiteboarding didn't realize that yesterday. After we defined a new standard by developing the first ergonomically shaped footpads a while ago, our new Entity Combo now comes with a whole range of innovative features such as the **NTT ContactPad** or the **NTT SplitStrap**. The entire product once again sets new standards in the evolution of kite sports. The **NTT** is quick and easy to mount. It offers a variety of settings for a perfect fit on every foot and it even looks damned good!

The **NTT** combined with our new **TheTrack** system, features **customizeX6** adjustability.
