- › Moulded TPU Heel Panel for durability and easy entry
- › Low friction eyelets
- › Flow Through Drain Panels

Wakestylers have extreme needs when it comes to their boots. In order to live up to these high expectations we built the Pop Boot. Whether you are a seasoned pro or riding boots for the first time, this is the perfect boot for you. A medium soft density liner offers both, flexibility and support with no loss of hold thanks to its heel retention strap. The strap pulls the rider's foot into the heel pocket as the boot is laced for reduced lift. The seamless liner construction offers easy entry and exit whereas the pre-moulded TPU heel panel and tongue allow for ultimate fit and comfort that produces no pressure points.

The Pop Boot is a boot that helps you to step up your riding to the next level!
